If Chevys are so great, why are they being built like mom and pop suburbia machines? Just look under a new 'Vette or Z28 and what do you find? A fifteen-year old suspension system that stinks, an exhaust system that's so restrictive that it knocks off 25% of the engine's horsepower, and a transmission with plastic parts in it that are made to break under heavy loads. The garage has three 'Vettes with tranny problems. Their engines are aluminum blocks without steel sleeves. Remember the Vega? Now look under a new Lil' Express Truck, Mirada CMX, or St. Regis police cruiser: an isolated torsion bar suspension sys-

tem just like the ones found on Ferraris and Maseratis, a *REAL* dual exhaust system, not one pipe with a "Y" pipe attached at both ends, trannies with a reputation for being the toughest made. The engines are police car and race proven. Bob Glidden, the guy who drives the world's fastest pro stock drives a Plymouth. Chevies WERE good cars. GM's living on a lot of old rusted out legends, while Chrysler, Ford, and AMC are producing well built, imaginative cars. Who would have thought that in these days, anyone would produce a fifteen second pickup truck? Chrysler did—the Lil' Express truck. How about a

4WD personal luxury car—the AMC Eagle? The Mustang was nursed back to health to take its place among the ranks of Porches, Fiats, and Triumphs. 'Vettes, Trans Ams, and Z28s can't. They're too soft in the middle. Mr. Dannen, GM's taking you and their other followers for a long walk off a short pier! Guide poor Jeff and the other misguided GM lovers. Give them a good injection of real Chrysler, Ford, or AMC excitement!

PAWPRINTS

By Charlie Pawprint

After reading your magazine and seeing everyone gripe at not enough publicity on their make of car, or boast that their BAD machine can eat anything alive, I thought that I would put my two bits in. It's not the car's name that makes it go faster, it's the engine, drive train, weight involved and, of course, the driver. Since I love Fords, I'm proud to admit that the wildest factory machine had to be the 427 Cobra. But what else can you expect—450 horses and 2100 pounds. Now

Mark Harris
Tupelo, Miss.

—Well, Mark me laddy, it's like this... The idea of My Wheels is for the readers to present an idea of a fantasy or dream car or what ever they lke. We realize that the drawings are not going to be all that professional. Some of the art does border on it, however. It's not really fair to knock the drawings since many of the guys are very young or havn't been at it long enough to be real hot. You say you can do better? So, let's see just how good you are.

lets say that you put a 426 He-
mi, 421 Super Duty, or a 427
behind a T-bucket. well...

Randall Utlerback
Centralia, Missouri

—Thank goodness I'm not the
only true believer!

Perkins

"I don't see where I'm getting any
better traction since I put the
radios on!"

I am writing to you from Ger-
many and I find it very boring
over here in the land of the fast
sports cars. There may be a lot
of exotic cars here, but very
rarely do you see a customized
car from our part of the world.
I'm not saying North American

gas guzzlers are better than Eu-
ropean cars. Lots of times
when I'm out on the autobahn
for a cruise at 70 or 80 miles
per hour, a Lamborghini, a Fer-
rari, or a Mercedes Benz will
"blow my doors off", pushing
150 to 160 miles per hour. To
Europeans, that's driving slow!
You even see VW Bugs out
there pushing 110! People
come over here, from "the land
of the double nickles" and still
do 55 or 60 miles per hour
when there is no speed limit on
the roads here. I see why Euro-
peans are the best race drivers
in the world—they practice on
the way to work every day!
You glance at a passing Mer-
cedes and you see a guy in it
with a \$300.00 suit on wearing
racing gloves!

Andrew Aidesson
Germany

I have a question—why are
some of the drawings in My
Wheels so crummy? I think
that I could draw better than
most of those people.

Dennis Ellefson/John Morgan

Is Sharman Di Vono, who
writes a lot of the stuff in your
book, the same person who
writes the "Star Trek" comic
strip? Also, is Sharman a guy
or a girl?

Robert Hutton

PLEASE REMEMBER...

If you are planning to send art of any kind to CARTOONS we MUST, repeat MUST have a self addressed stamped envelope for return, if you so desire. Art not accompanied by one will not be returned. Please keep this in mind, since we are swamped in almost every area where readers send us art. Thanks.

—Yes, Bob, Sharman does the scripts and Ron Harris of CARtoons fame does the art. As for Sharman being a guy or girl... a GIRL, my friend.

I noticed that the latest issue of CARtoons had a lot of work by Dennis Ellefson... He hasn't done too much recently and I'm glad to see he's back. Why did he suddenly start again?

Julie Rufus
Philadelphia, PA

—Because he's a big show off.

All of CARtoons is great except for one thing. C.G. Butcher stinks! People write in to this wrench-head fellow for help and what does he do but put them down! One guy wrote in about a leak and worried that his flywheel might be warped. So what answer does he get? "no but you're brain might be". What kind of answer is that? Other than that your mag is number 1.

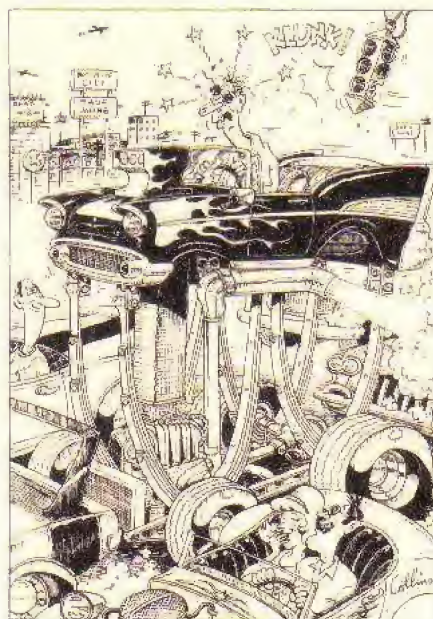

Bully Amos
Baton Rouge, LA.

—It looks as if our readers are taking what is meant to be a joke very seriously. Guess ol' C.G. will have to go bye bye.

I have been reading your column for four or five issues now and finally got up the courage to write. Ya see, I've got a problem, it's my Dad. In the first place he owns 45% of Tex-

ico Oil Corp. and needless to say he has money. I'm of age to get a car but my Dad wants me to get a Import or ride in the limo, but I want a "55" Chevy, with keystone Classics, Abbm star shifter on the floor and a fully blown 427 with a full neck. WHAT SHOULD I DO????!!!!

IT'S GETTING TO BE TOO MUCH WHEN...

Asking About—KRASS & BERNIE

CARtoon Mar/Apr 81

How did Krass get a 427 Engine in a Ford Cobra???. 427 is a Chevy Engine.

Tim Marcey
Arlington., Va.

—Easy, adaption.

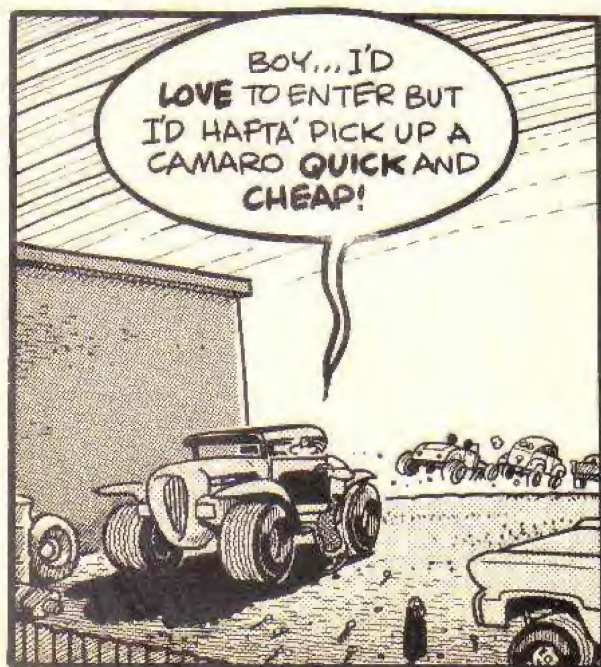

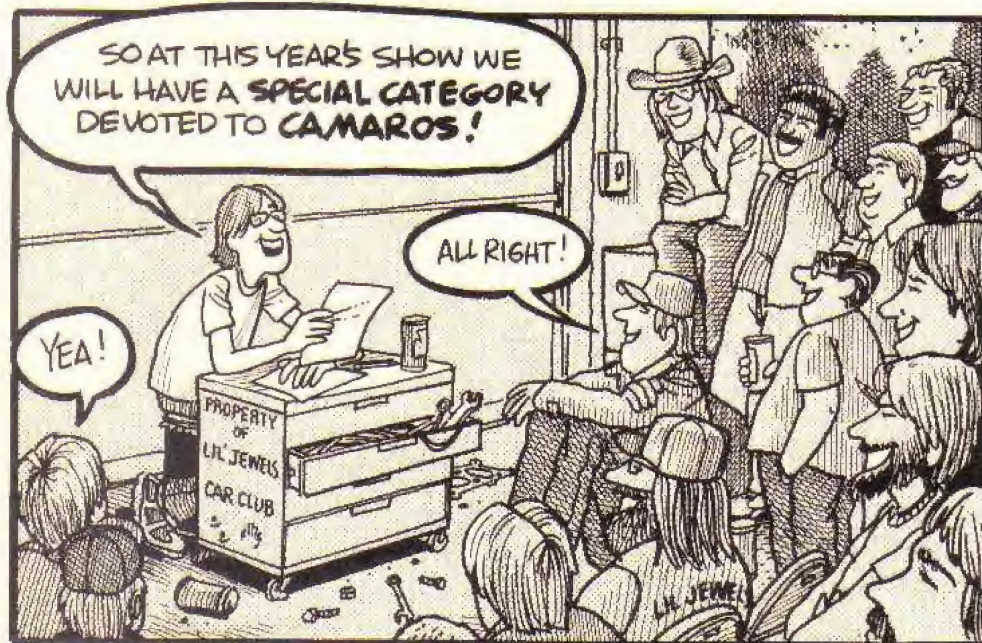

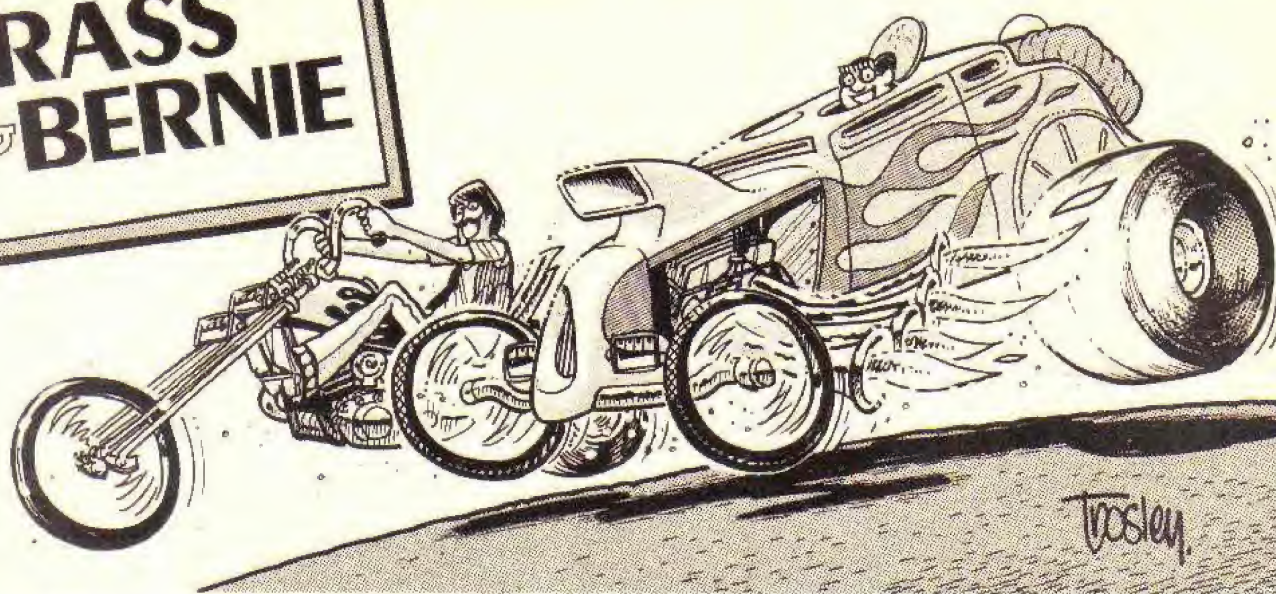

QUICKIE POLL RESULTS...

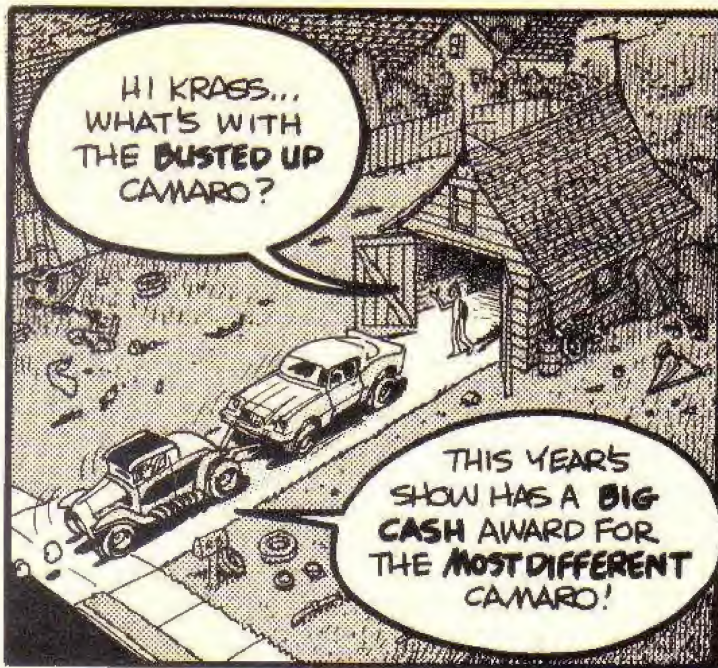

So far it looks like Krass & Bernie are the most popular feature in CARtoons. The second best liked feature appears to be a tie between How To Draw Cars and My Wheels. Plenty of good ideas about contests that you'd like to see, exciting things coming up. Seems that good ol' George Trosley and Shawn Kerri are the two most requested artists with Steve Austin coming on strong. Don't feel that you have to wait for a poll to let us know what you liked or didn't. Drop a line anytime you'd like. Thanks to all.

As of this writing...

Guess what, gang?... The "My Wheels" feature is TOTALLY!! out of control! If we were to print, let's say just a quarter of them, we could fill at least TWO ISSUES and have no room for anything else. So, what we would like to say is... "Let's ease off that feature for a while!" There's not much chance of anyone getting in as of this time since as we say "it's beyond ever catching up. We really thank all of you for your interest on the feature. It's good to know that we can come up with an idea and have it received so enthusiastically!

ACCESSORIES after the POCKETBOOK

At last a practical stereo system for the small car without the room for the installation of speakers. This factory option comes complete with several selections of German band music.

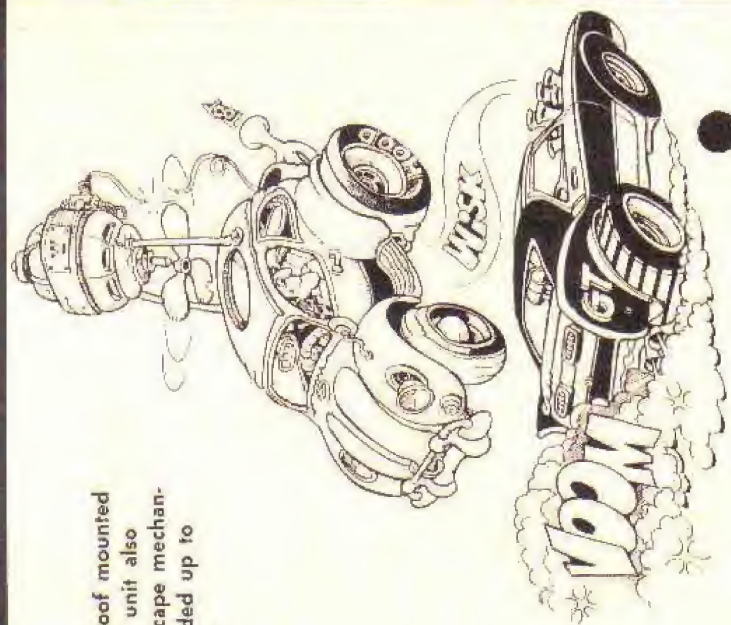

Fascinating new anti-theft device (\$6,000 f.o.b. Nirobi) keeps would-be car thieves at bay, and also cuts down on annoying overtime parking tickets.

By
HAL ROBINSON

Powerful new roof mounted air conditioning unit also serves as an escape mechanism when speeded up to maximum RPM.

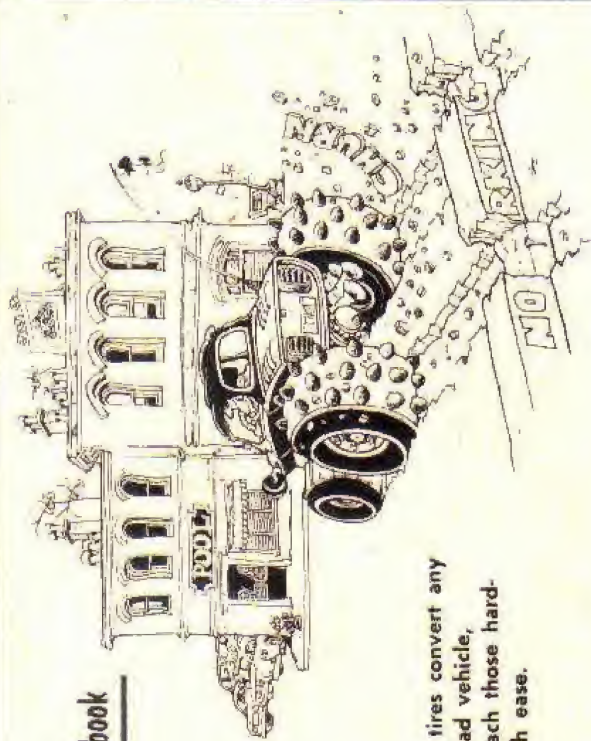

For the ecology minded . . . this powerful vacuum device is ideal for sucking up bottles, cans and assorted trash, which is taken to local trash redemption centers and converted into cash to pay for the cleaning of the car's interior.

Accessories after the Pocketbook

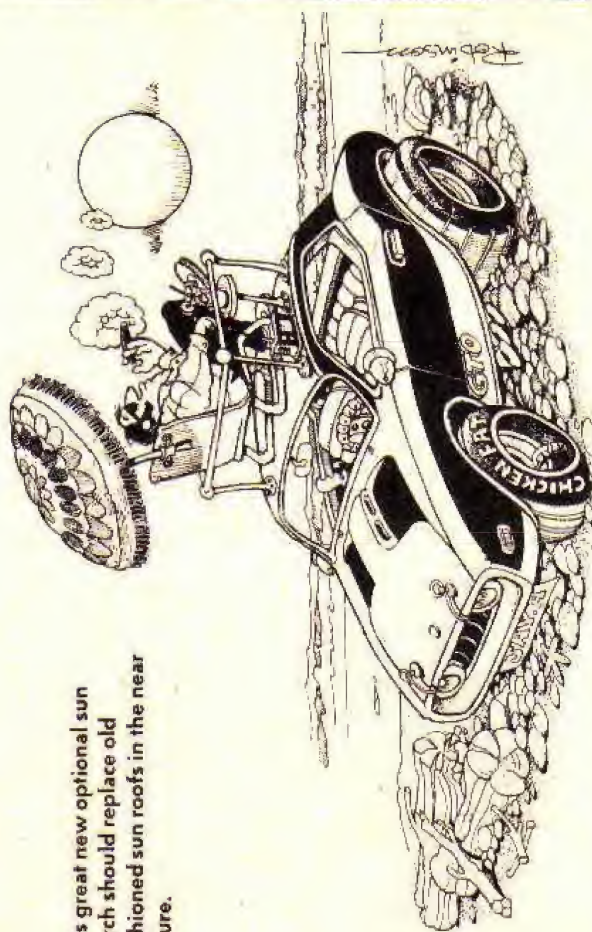

New super-traction tires convert any car to an off-the-road vehicle, allowing you to reach those hard-to-get-at places with ease.

Rakish new house trailer designed for the small hot car, and leadfoots who like to live at the dragstrip.

Fantastic new auxiliary power source insures easy starting with only about an 80% decrease in speed.

This great new optional sun porch should replace old fashioned sun roofs in the near future.

A DAY AT THE WINTERNATIONALS

The other day we had a chance to make it to the famed Winternationals in good ol' Pomona. Ah, but time and deadlines said "no way, Jose!" So, we did the next best thing... We sent our own belly dancing staff mechanic, Sharman Di vono and she came back with a few pictures. She claims that these words were actually overheard, but that remains to be seen.

THE HISTORY OF HOT RODDING

By
Dave Deal

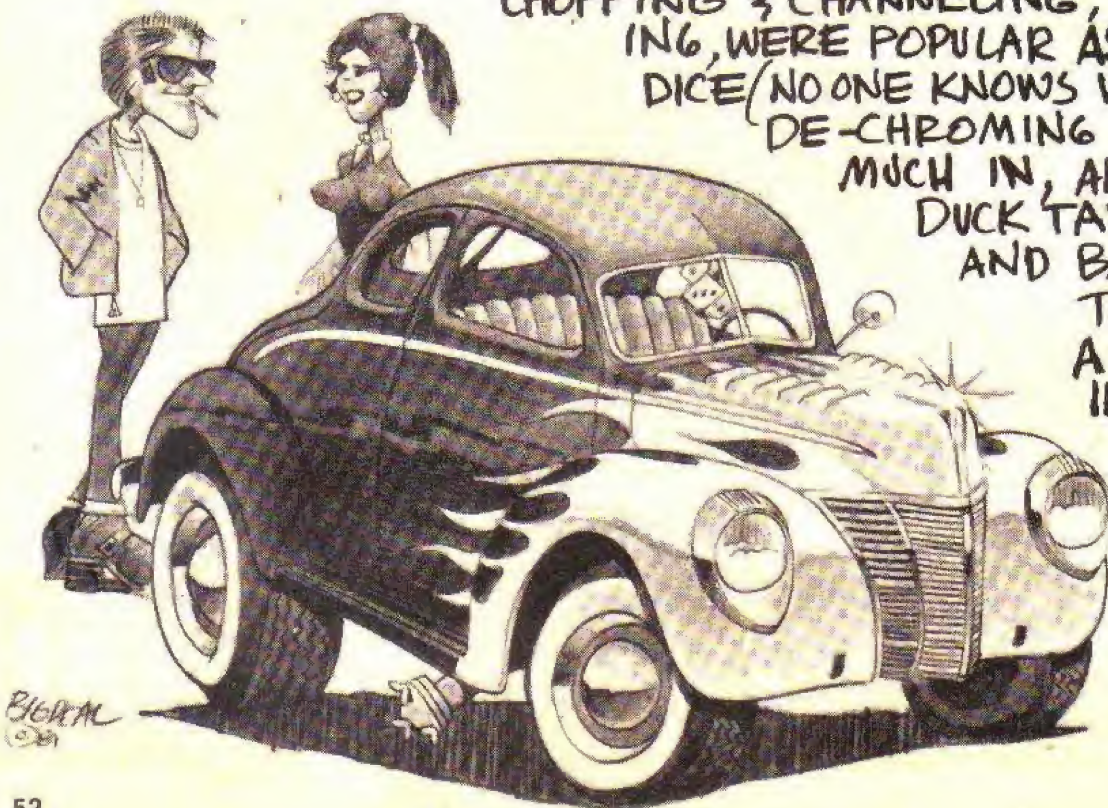

BACK IN THE OLD DAYS, 1934, HISTORY WAS MADE, AN EVENT LONG TO BE REMEMBERED. CARLA MORLEY, A LITTLE OLDSCHOOL TEACHER, FROM PASADENA, BOUGHT HER FIRST CAR, A 1934 FORD ROADSTER. IN THE YEARS THAT FOLLOWED THIS CAR WAS TO BECOME FAMOUS, IT WAS SEEN & SOLD MORE OFTEN THAN EVA BRAUN'S MERCEDES. BUT.... THE TRUTH IS CARLA MORLEY NEVER DROVE IT! THE REAL "LITTLE OLD SCHOOL TEACHER FROM PASADENA'S" CAR IS STILL THERE, LOCKED AWAY FROM PRYING, HOT RODDERS' EYES. ALL YOU NEED TO FIND THIS CHERRY ORIGINAL, IS TO FIND CARLA MORLEY'S GARAGE, FIGHT OFF THE ATTACK DOGS, AND CONTEND WITH THE TEACHER, BY THE WAY SHE TEACHES **KARATE**, GOOD LUCK!

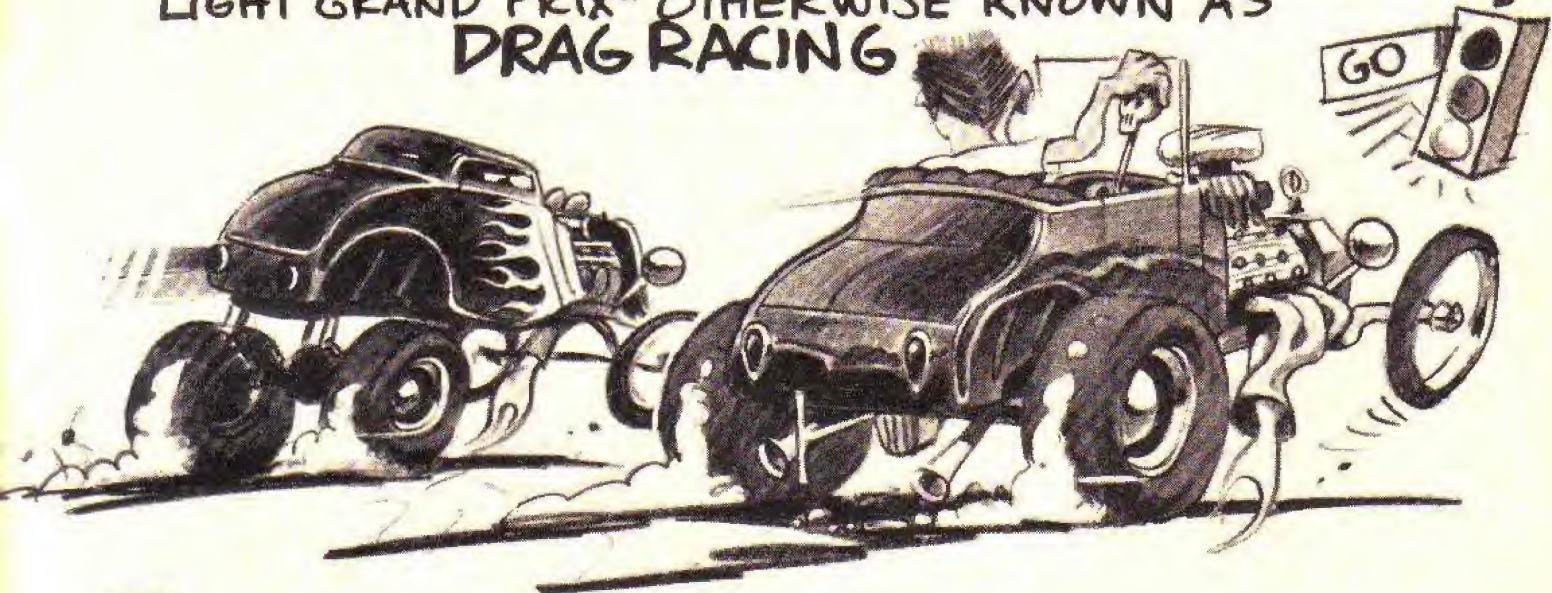

THE **50**S WERE THE TIMES THAT MOST HOT ROD TRADITIONS BEGAN, THE CHOPPED TOPS, THE DAGO RAKES, STRAIGHT PIPES DUALS AND CRUISING, WHICH WAS NOT CALLED CRUISING PER SE. AT LEAST NOT BY EVERYONE. IT WAS 'HANGING OUT' AT THE LOCAL DRIVE-IN AND YOU HAD TO PULL OUT THE CHOKE IF YOU DIDN'T HAVE A 3/4 RACE CAM.

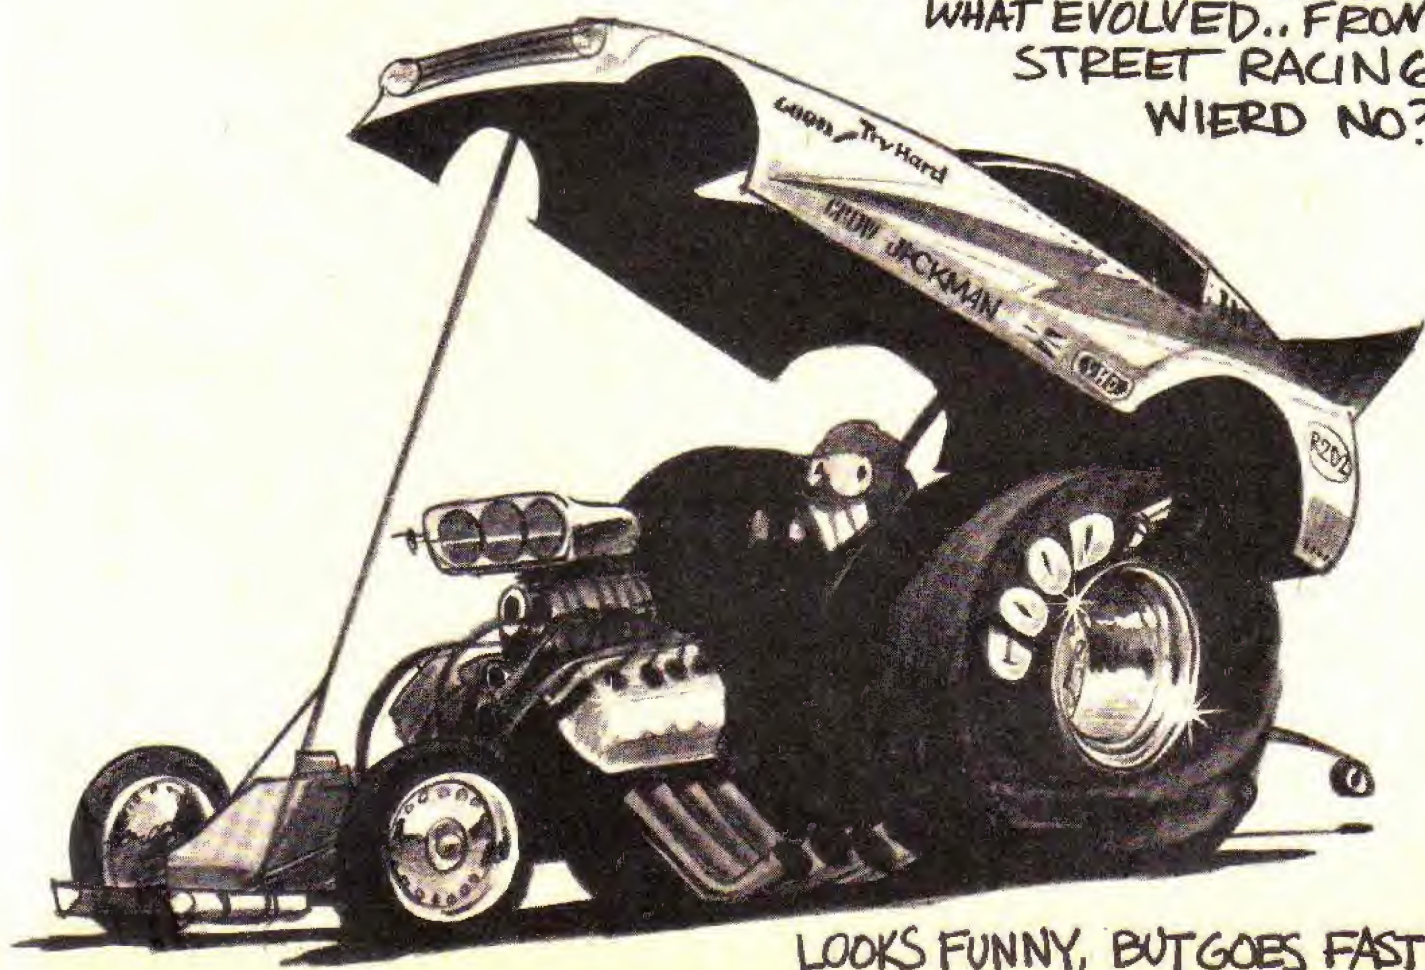

THIS TECHNIQUE WAS CALLED 'DASHBOARD CAM' AND MADE A LOT OF SMOKE. AH YES, CARSON TOPS, FLAME JOBS & "OLDS." FLIPPER HUB CAPS WERE "COOL MAN", LOUVERS TOO! CHOPPING & CHANNELING, DECKING & NOSE-ING, WERE POPULAR AS WERE ARGYLE DICE (NO ONE KNOWS WHY.) TOTAL DE-CHROMING WAS VERY MUCH IN, ALONG WITH DUCK TAIL HAIRCUTS AND BABY MOONS. THE FIFTYS WERE A TIME OF GREAT INNOVATION, AND MANY OF THESE IDEAS ARE STILL WITH US.

DUCK TAILS WERE "BITCHIN" AND PONY TAILS WERE CUTE BUT THE PRIME MOVER WAS THE WEEKLY "STOP LIGHT GRAND PRIX" OTHERWISE KNOWN AS
DRAG RACING

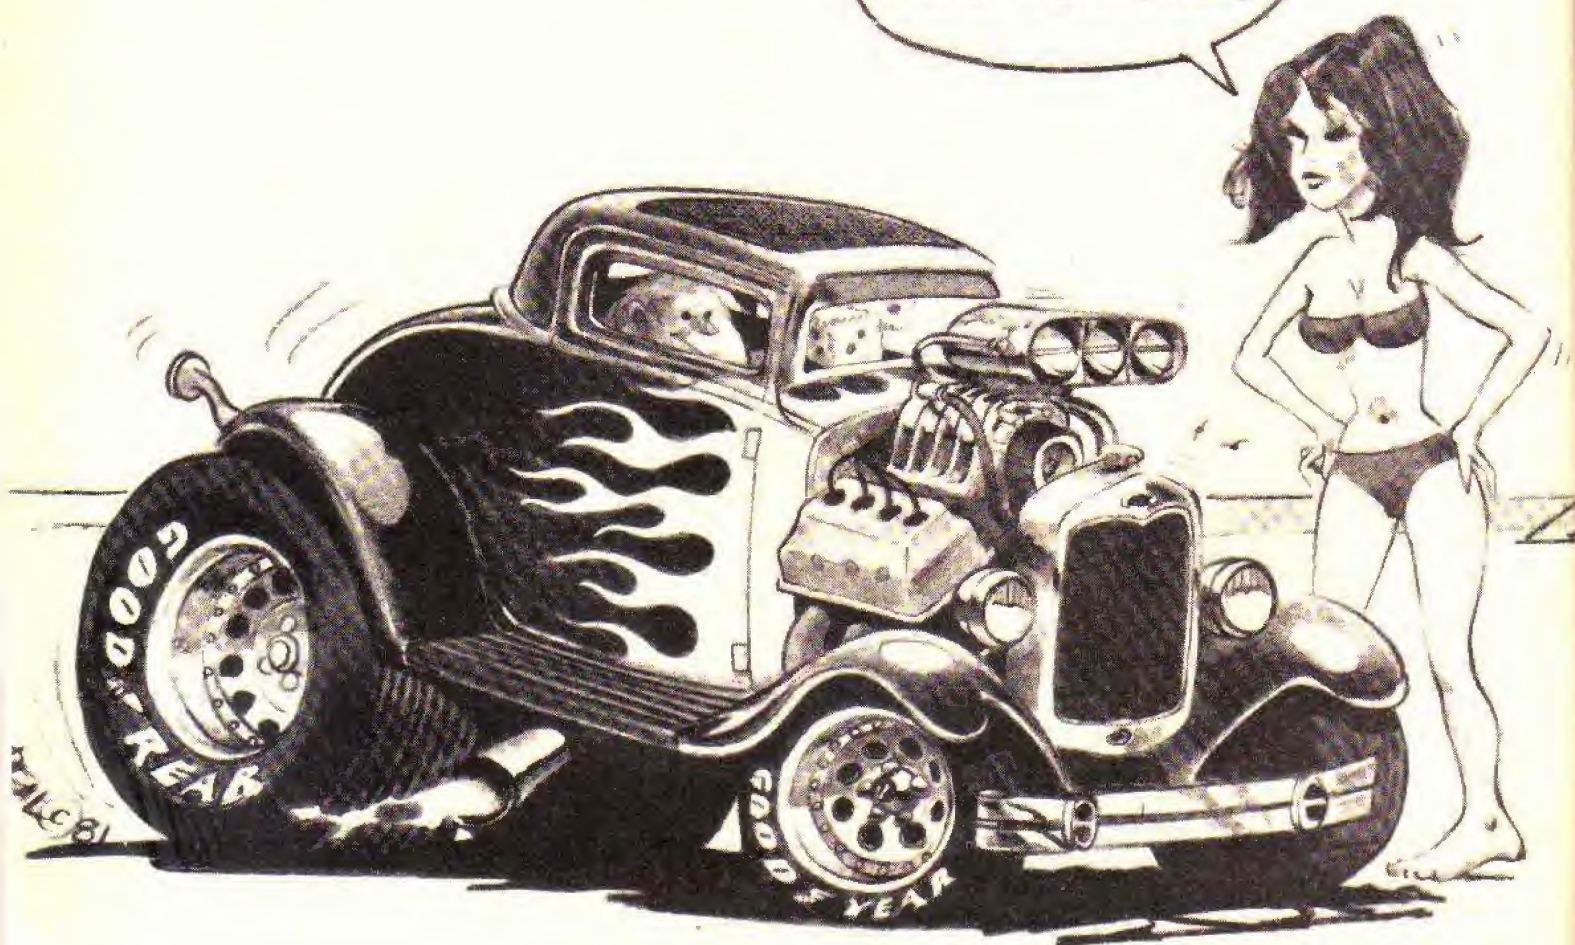

THIS THEN, IS WHAT IT'S ALL ABOUT, TO SEE WHO CAN DROP A CLUTCH, U-JOINT, AXLE OR REAR END FIRST! THEN WORK AT NIGHT 'TILL 2AM ALL WEEK, AND DO IT AGAIN NEXT FRIDAY NIGHT, NO WONDER IT'S CALLED **DRAG RACING**, ALL THAT WORK'S A **DRAG**! SPEAKING OF ODD, FUNNY THINGS... HERE'S WHAT EVOLVED.. FROM STREET RACING WIERD NO?

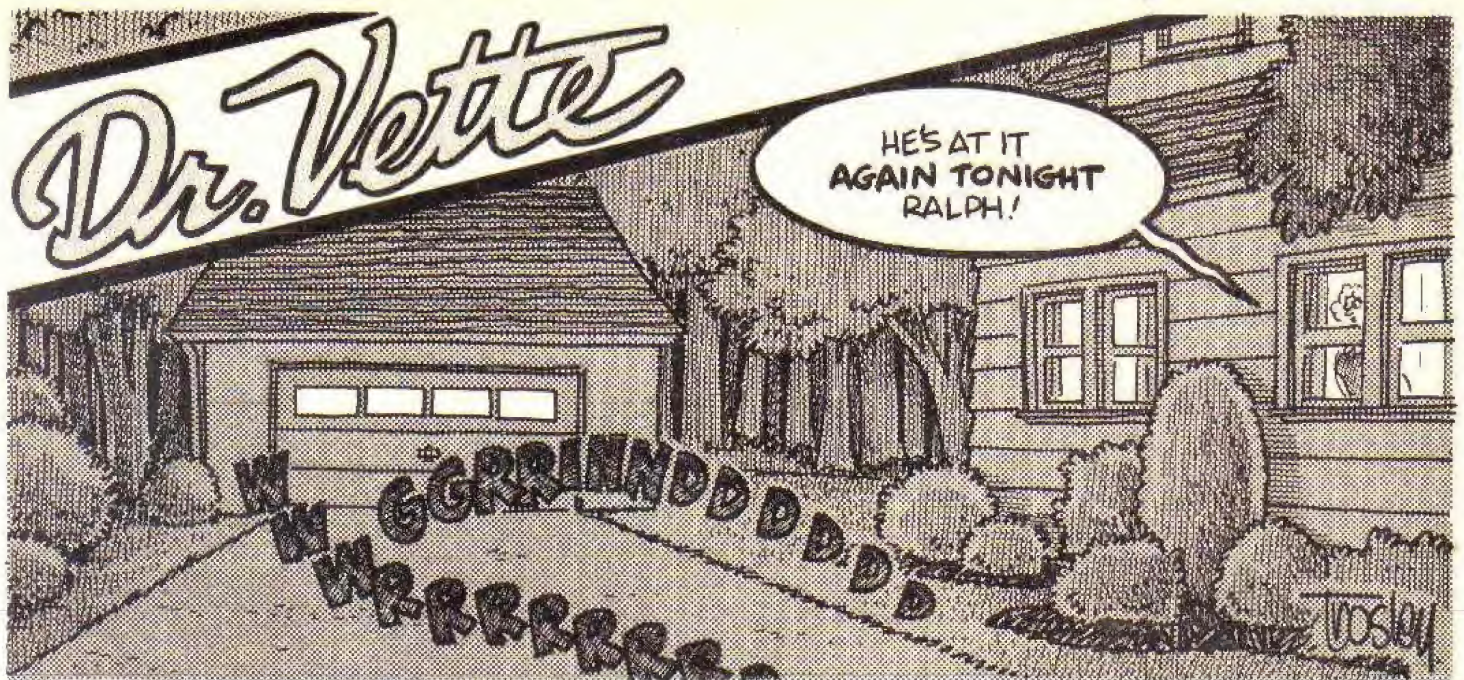

LOOKS FUNNY, BUT GOES FAST! ⁵³

WELL... NOT MUCH HAS CHANGED REALLY.. I MEAN ON ANY GIVEN FRIDAY NIGHT YOU STILL SEE THOSE NEAT 1950's STYLE HOT RODS CRUISING SUNSET, WHITTIER OR VALLEY PARKWAY SHOWING OFF, DRAG RACING WHEN THE COPS AREN'T LOOKING AND HANGING OUT AT THE McDONALDS OR CARLS JR. OR TUBBYS. THE ONLY THING THAT BOTHERS ME IS, WHAT ARE THESE KIDS GOING TO DO FOR NOSTALGIA IN 20 YEARS, THE HOT RODS OF THE 70's & 80's ARE REALLY HOT RODS OF THE 50's AND I WONDER WHAT THEY'LL BE DOING FOR CARS? IN THE FUTURE, I MEAN ALL THE VINTAGE TIN WILL OBVIOUSLY BE USED UP, AND WHEN IT'S GONE THERE'S NO MORE... OR IS THERE....

HEY CREEP
DO I SMELL
FIBERGLASS?

Dr. Vette

AND EVERYONE **KNEW** IT TOO... EVEN HIS PLAYMATES!

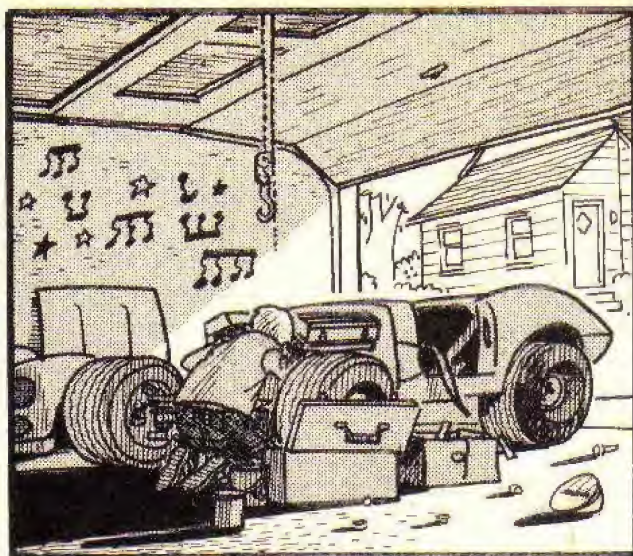

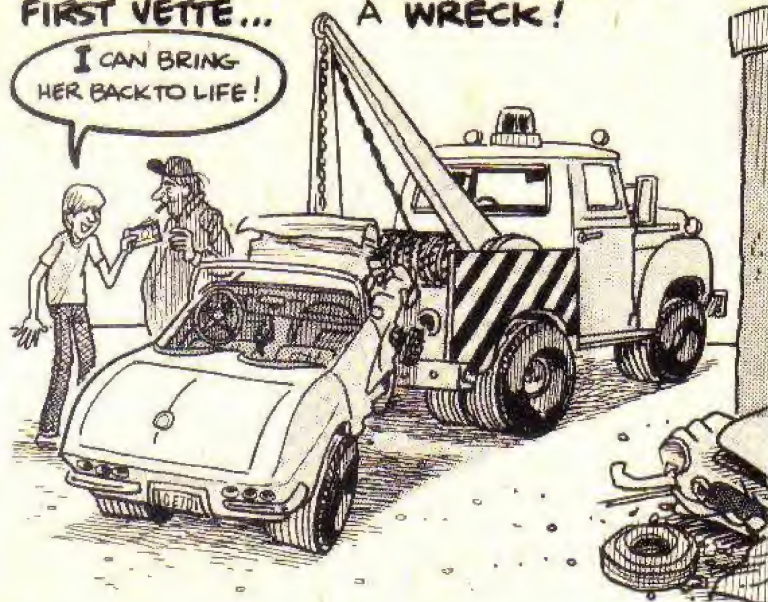

CORVETTES... CORVETTES... CORVETTES... THAT'S ALL DOC EVER CARED ABOUT!

SOON HE SAVED UP ENOUGH TO BUY HIS FIRST VETTE... A WRECK!

I CAN BRING HER BACK TO LIFE!

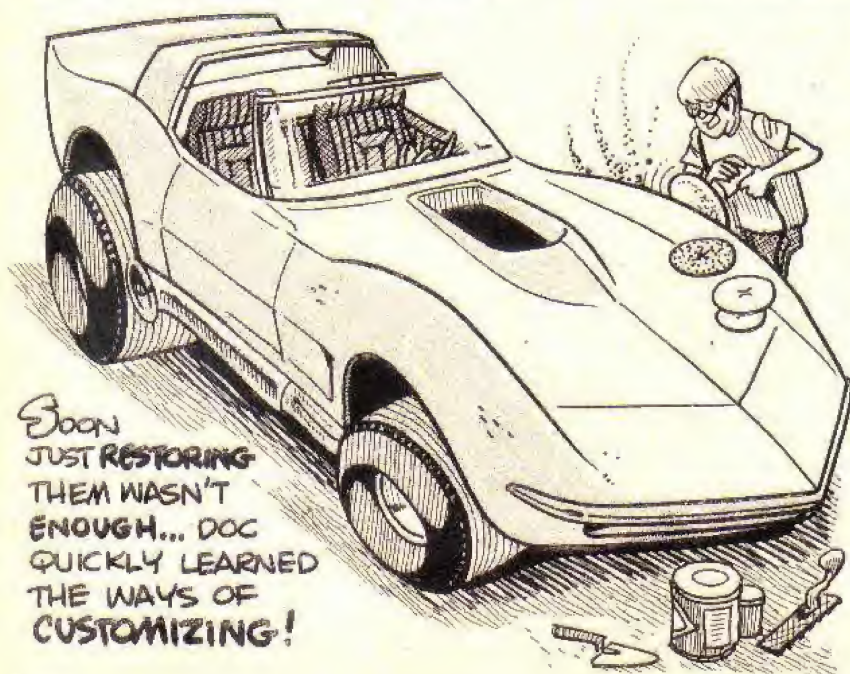

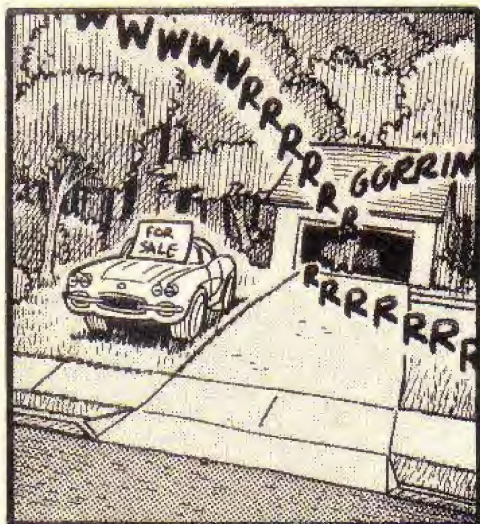

AND THAT'S JUST WHAT HE DID. HE TOOK IT APART PIECE BY PIECE AND REBUILT IT BACK INTO WHAT IT WAS MEANT TO BE.

THAT DID IT... HE WAS HOOKED! THE FIRST WRECK SOON LED TO ANOTHER...

AND ANOTHER...

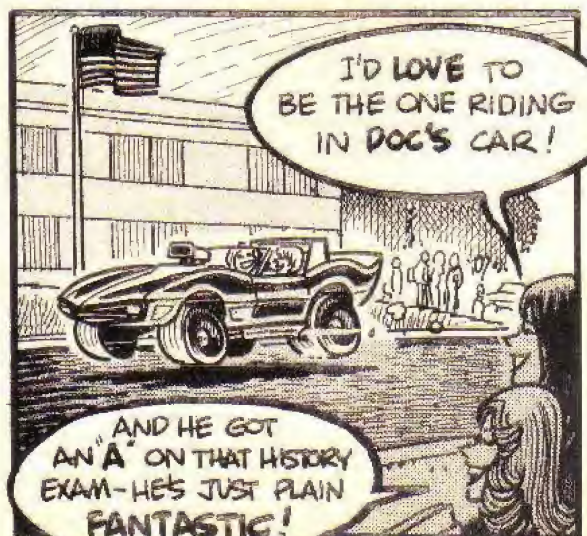

GOT MY LICENSE TODAY DAD!

AND ANOTHER VETTE I SEE... NOT A WRECK EITHER!

SOON JUST RESTORING THEM WASN'T ENOUGH... DOC QUICKLY LEARNED THE WAYS OF CUSTOMIZING!

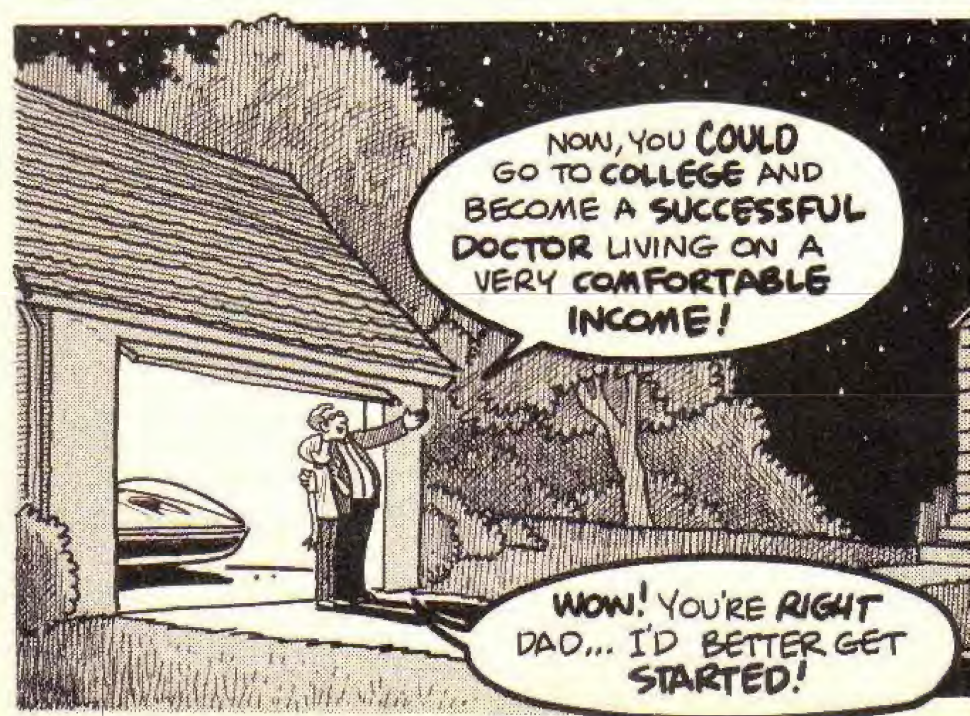

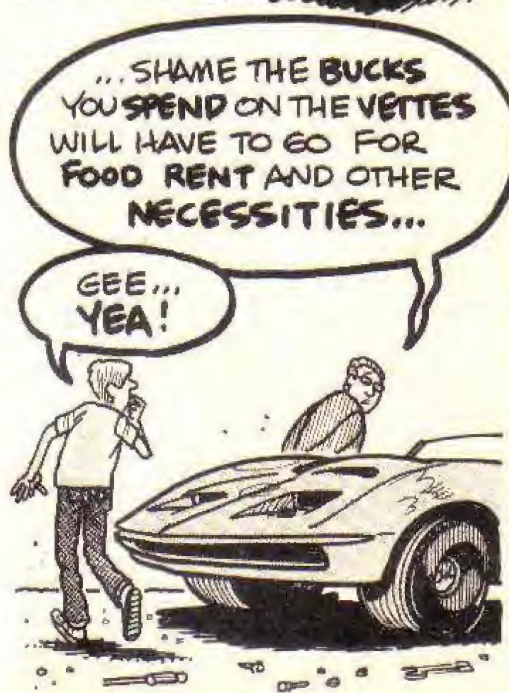

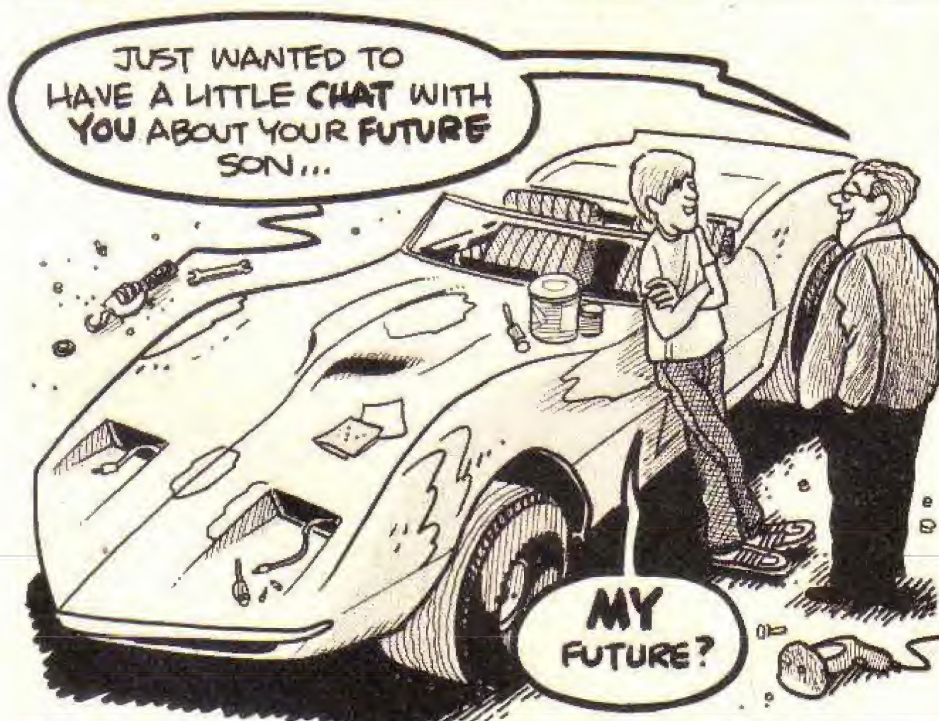

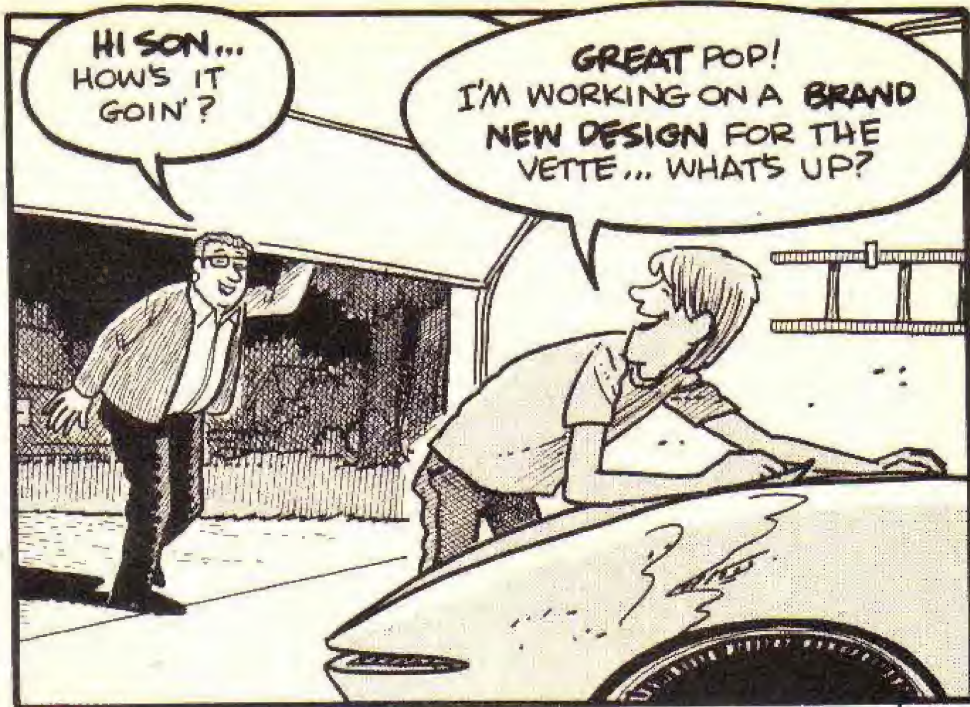

BY HIGH SCHOOL HE NOT ONLY DROVE A SUPER VETTE... HE WAS AN EXCELLENT STUDENT!

I'D LOVE TO BE THE ONE RIDING IN DOC'S CAR!

AND HE GOT AN 'A' ON THAT HISTORY EXAM - HE'S JUST PLAIN FANTASTIC!

BUT STILL... HIS PARENTS WERE VERY CONCERNED ABOUT HIM.

SO WHEN SEPTEMBER CAME
DOC LEFT FOR COLLEGE AND
PRE MED COURSES!

DO YOUR
BEST, SON!

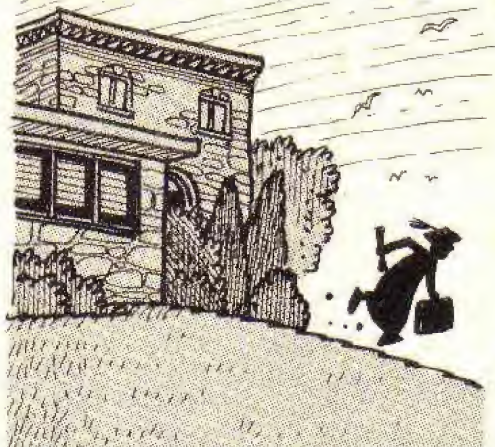

I WILL!

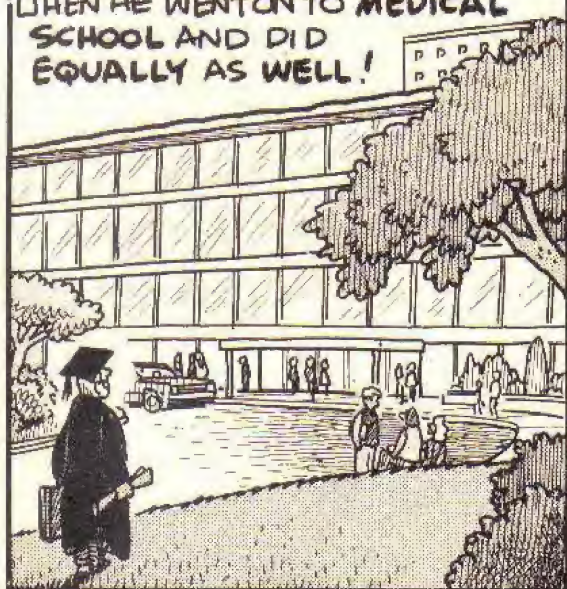

AND HE DID! WHILE OTHERS
FOOLED THEIR TIME AWAY
DOC STUDIED REAL HARD!

HE SUPER APPLIED HIMSELF
AND FOUR SHORT YEARS
LATER, GRADUATED AT THE
TOP OF HIS CLASS!

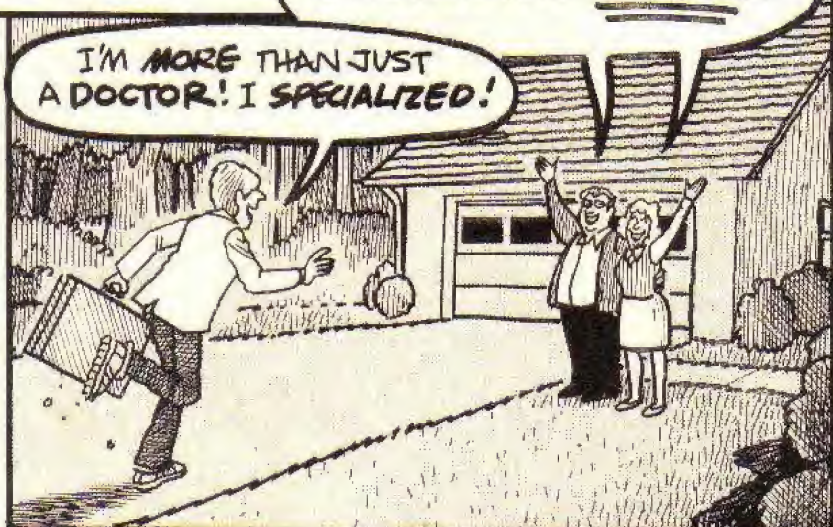

THEN HE WENT ON TO MEDICAL
SCHOOL AND DID
EQUALLY AS WELL!

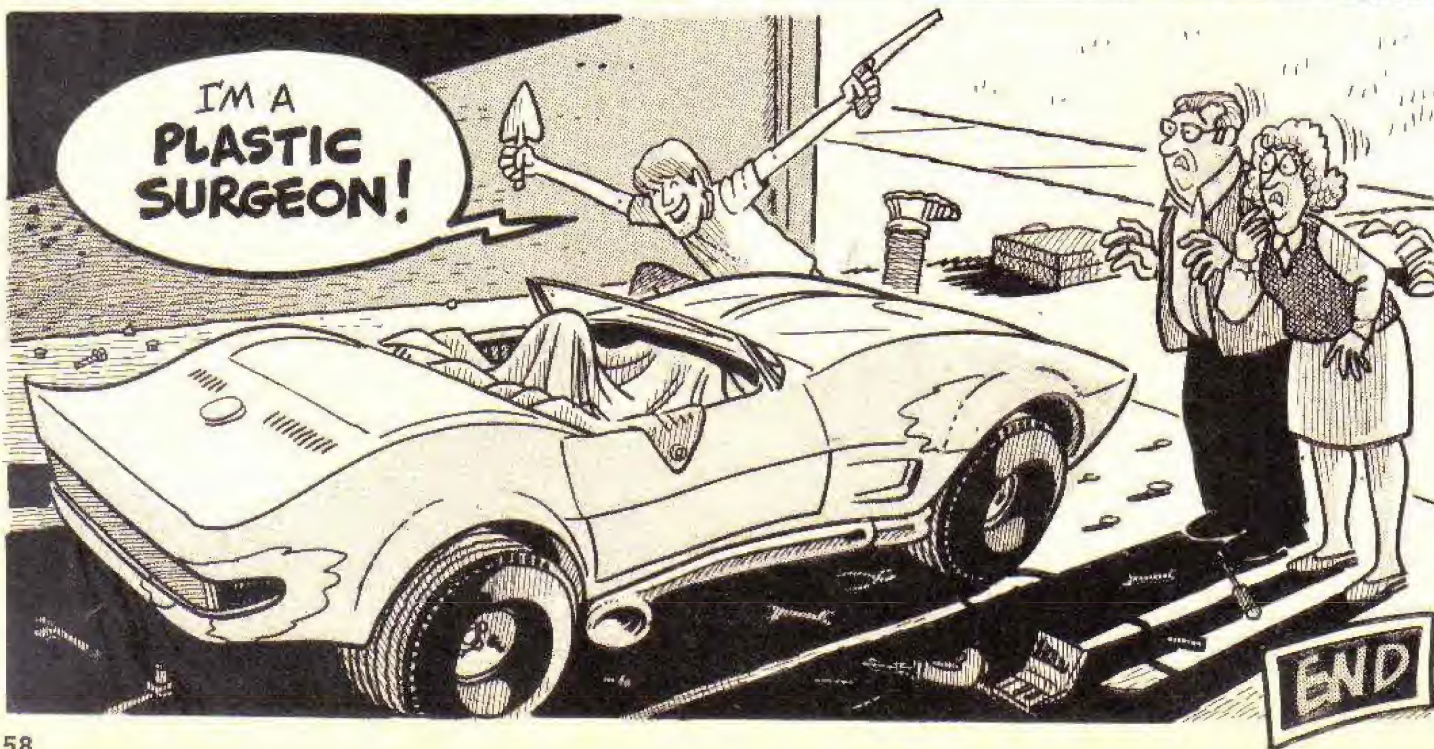

FINALLY HE
RETURNED HOME!

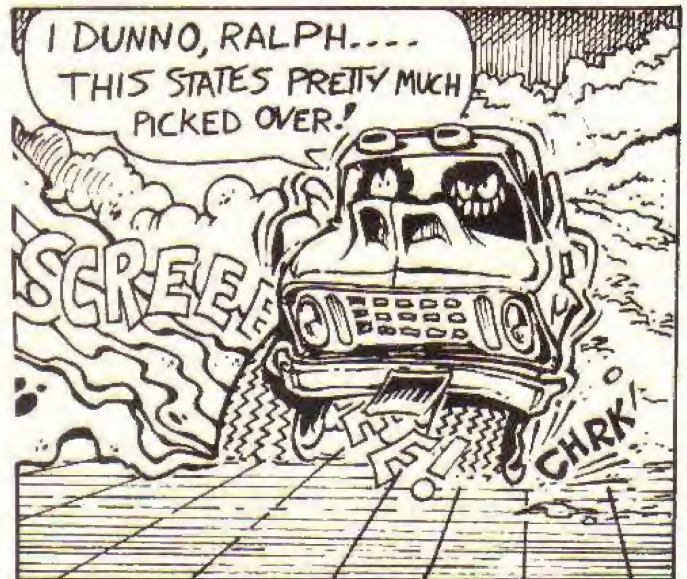

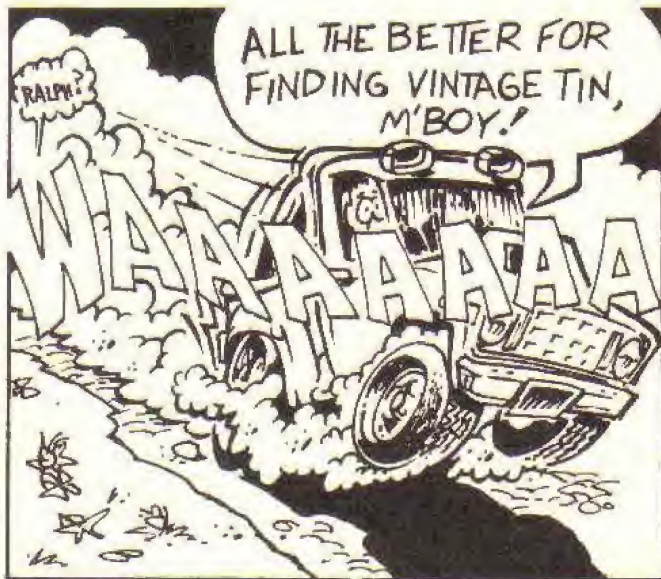

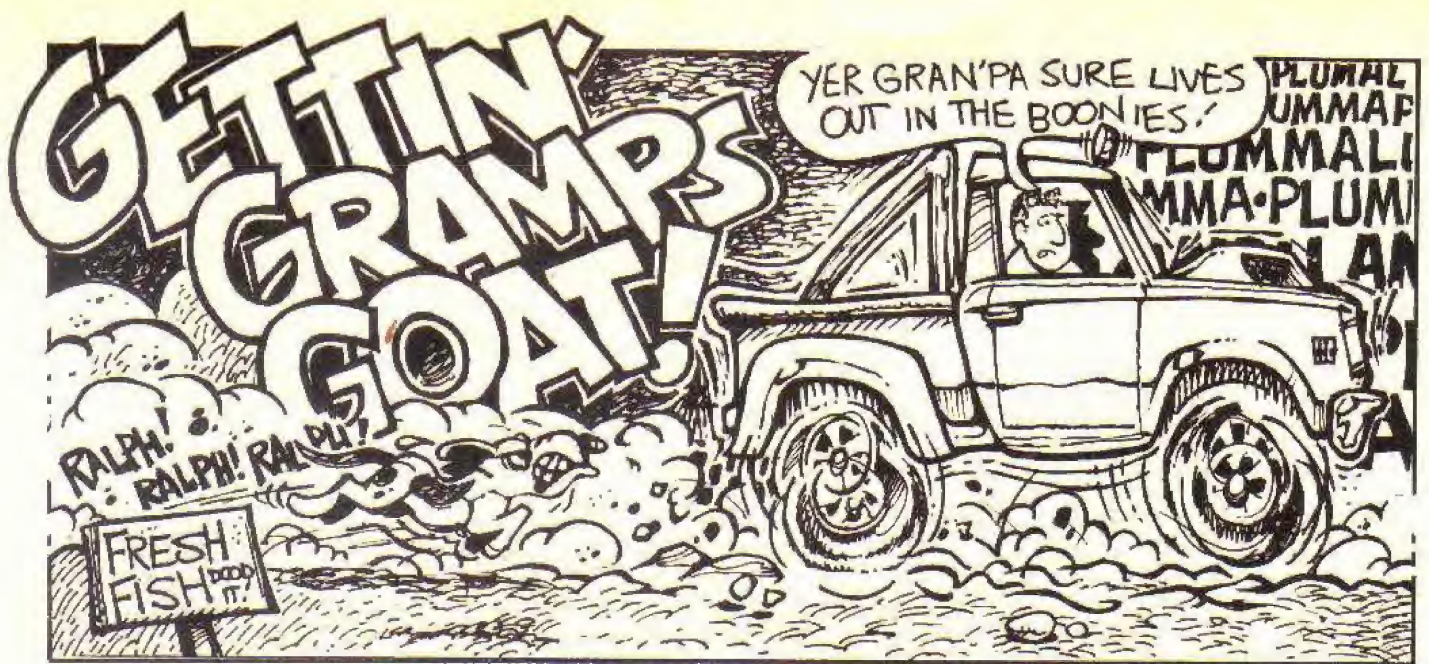

WELCOME HOME
OUR SON THE DOCTOR!

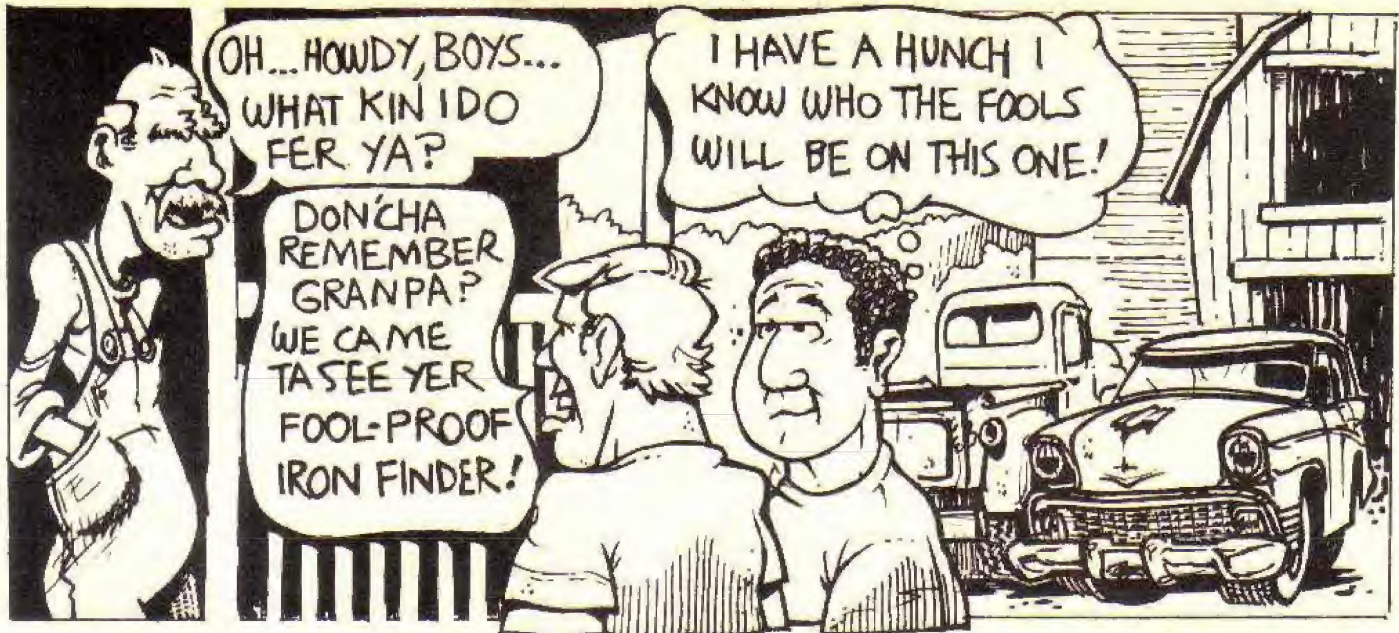

I'M MORE THAN JUST
A DOCTOR! I SPECIALIZED!

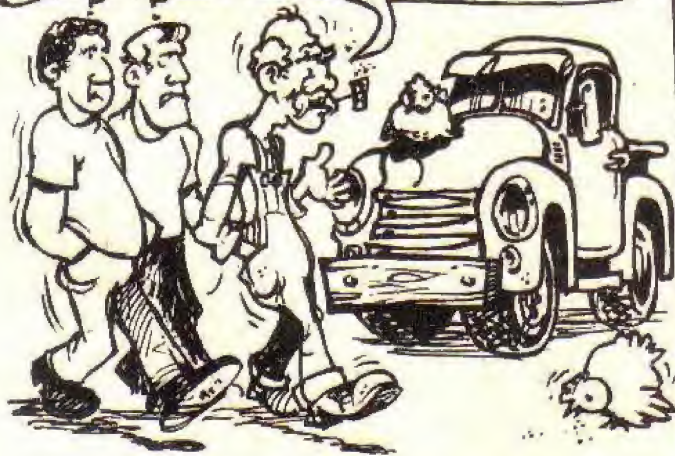

I'M A
PLASTIC
SURGEON!

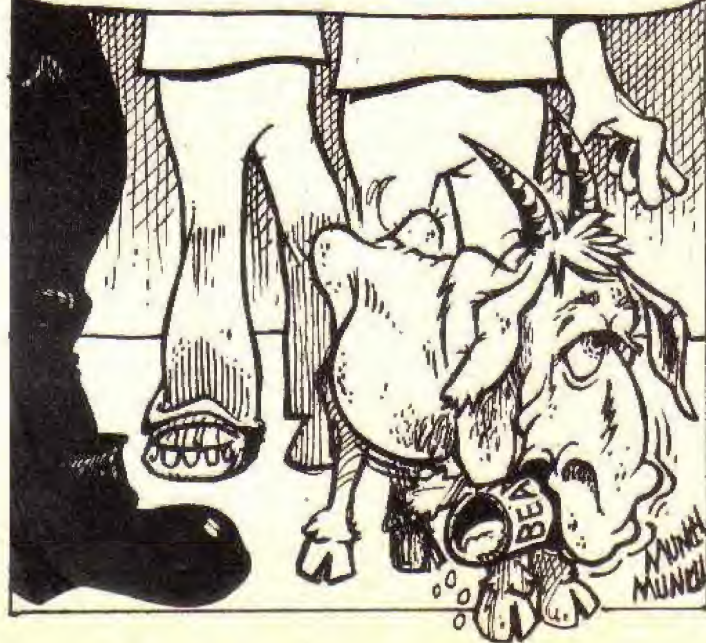

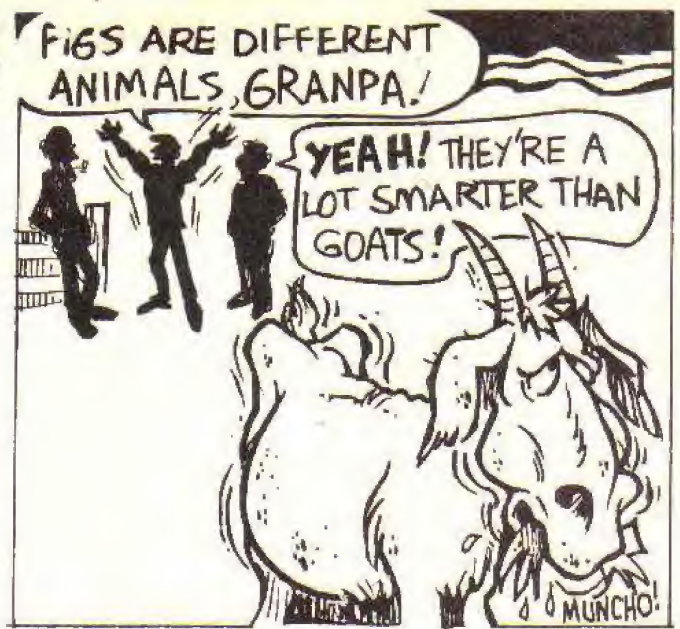

WELL, I KEEP'IM RIGHT BACK
OF THE BARN YONDER. IT SEEMS
TO BE THE BEST PLACE...

MATTER OF FACT, I'VE ACTUALLY
HAD THIS AMAZIN' MACHINE
AROUND FOR A
LONG TIME!
JUST NEVER
FIGGERED IT'D
AMOUNT TO
A HILL A'BEANS,
BUT....

YESSIR, THERE STANDS THE
WORLDS' FINEST IRON FINDER,
CAN'T NEVER MISS WITH HIM!
